Experience

*Spt 2024/
Dec2024*

Teacher Assistant

ArtCenter College of Design, Pasadena

Assisted 10+ students with prototyping fabrication, model making, and workshop equipment operation. Provides technical guidance on 3D printing, laser cutting, CNC machining, and material selection. Supported class demonstrations, design critiques, and safe workshop practices.

*Spt 2024/
Dec2024*

Student Worker

ArtCenter College of Design, Pasadena

Supported 100+ students fabrication projects using industrial laser cutters. Advised users on file preparation, material selection, and manufacturing constraints. Operated and maintained laser cutting equipment in a fast-paced prototyping environment. Ensured quality, accuracy, and safety throughout the fabrication process.

*Jan 2026/
Jul/2026*

Product Design Intern, Professional Solution

Harman International, Shenzhen

Designed and visualized professional audio product concepts through CAD modeling, rendering, and concept development. Collaborated with industrial designers and engineers to refine form, usability, and manufacturing feasibility. Produced presentation materials and visual assets to support design reviews and stakeholder communication. Conducted competitive analysis and design research to inform product development decisions.
